

Vsaving SRS

The **Vsaving website** will allow users to manage their savings, set saving goals, and use a tool to calculate savings based on their salary and expenses. The website will have two primary components: Savings Management and Savings Calculator.

Product Features

- **User Registration and Login:** Secure user authentication and registration.
- **Savings Management:** Users can add, edit, and track their savings accounts and goals.
- **Savings Calculator:** A tool to calculate savings based on your salary and expenses.
- **Reporting:** Visual reports showing their savings progress over time.
